Snow Removal Reminder

Minneapolis ordinance requires property owners to clear sidewalks within 24 hours after a snowfall for houses and duplexes, and four daytime hours (*daytime hours are defined as 8:00 AM to 5:00 PM*) for all other properties. Failure to shovel your walk could lead to a bill to pay for the cost of crews shoveling it.

Shovel the entire width of the sidewalk on all sides of your property down to bare pavement. When conditions cause bonded snowpack or ice that can't be immediately removed, it is acceptable to shovel as best you can, then sprinkle a little sand to provide traction until conditions improve and you can fully remove it. Pile snow into your yard and boulevard. It's against the law to shovel snow into streets and alleys.

You are responsible for your sidewalk throughout the winter, not just immediately after a snowfall. When temperatures rise above freezing, snow and ice on or adjacent to sidewalks will melt and often flow onto or across the sidewalk. When temperatures drop back below freezing, the remaining water on the sidewalk refreezes and results in icy sidewalk conditions. It is important for property owners to address sidewalks even without a precipitation event.

The City offers free sidewalk sand for Minneapolis residents.

9th Annual Community Connections Conference: Saturday, February 1st

EVENT: Community Connections Conference
DATE: Saturday, February 1st, 2020
TIME: 8:00 AM – 4:00 PM
LOCATION: Minneapolis Convention Center, 1301 2nd Avenue South, Hall A, Lower Level, Minneapolis, MN 55403

Join friends, neighbors, policymakers, and service providers for the 9th Annual Community Connections Conference.

At the Community Connections Conference, you can connect with others in our community to discuss how the 2020 U.S. census and the 2020 presidential nominating primary election will affect you, your family, and your community.

This conference is a free, public event that brings together residents of Minneapolis, community groups, neighborhoods, and decision-makers to connect, learn, and address community issues.

The theme for the 2020 Community Connections Conference is “We count,” a call to action to get involved in decision-making by getting counted in the U.S. census; voting; joining an advisory committee or neighborhood board; learning about important local issues and City policies such as housing, immigration, and wage theft; or volunteering.

About the census

April 1, 2020 is census day in the United States. This vital count of the population determines funding for important things such as schools and cities, as well as how many representatives we get in Congress. It is critical for everyone in Minneapolis to answer the census questionnaire, and we must work to ensure that no one goes uncounted because of fear, misinformation, language barriers, or any other barriers.

At the Community Connections Conference, you can learn about the census, how to get involved, how to complete the census, how we use its data, the challenges Minneapolis faces, and how we’re working to ensure that everyone counts in 2020.
