For your own benefit and to help your neighbors, people pushing strollers or using wheelchairs, and the many people in Minneapolis who walk, please do your part.

Minneapolis Ordinance requires that property owners clear sidewalks after the end of a snowfall within:

- 24 hours for single family homes and duplexes
- Four daytime hours for apartments, commercial buildings, and all other properties (daytime hours begin at 8:00 AM)

When you shovel snow and clear ice:

- Shovel the sidewalks on all sides of your property, the full width of the sidewalk down to the bare pavement.
- Pile snow into your yard and boulevard. *It's against the law to shovel snow into streets and alleys.*

For more info, visit the City's website at www.ci.minneapolis.mn.us/snow/shovel/index.htm.

Pay Attention to Your Water Lines in Winter

Minneapolis takes care of about 1,000 miles of underground water mains throughout the city. Wherever homes or businesses connect to the water mains, the owners of those properties have the responsibility of maintaining their water service lines. That means when underground water lines freeze during extremely cold winters, the property owners must contact and pay a contractor to thaw out the line.

If you have any questions regarding this information, please call the City of Minneapolis Public Works Water Treatment and Distribution Services Division at 612-673-5600.

FAQ

Why do water service lines freeze?

Water service lines freeze when excessively cold winters cause the depth of the frost to reach the service line.

Who is responsible for water service lines?

In the City of Minneapolis, the water service line from the water main to the meter is owned by the property owner. It's the property owner's responsibility to maintain this line (including the curb valve) in good working order.

How do I know if my service line is frozen?

If there is no water anywhere in your house, and your supply line and master shut off valves are open, you may have a frozen service line. Contact the City of Minneapolis Water Treatment and Distribution Services Division (*contact info below*) and an inspector can be sent to confirm whether your line is frozen.

My service line is frozen. What should I do?

If your service line is frozen, you will need to call a qualified contractor who specializes in thawing frozen services. You can call the City of Minneapolis Water Treatment and Distribution Services Division at 612-673-5600 or Minneapolis 311 for information on contractors who do this type of work.
