Paddle Share is launching for the 3rd summer on Saturday, May 25th. **Reservations for Memorial Day Weekend are now open!** Don't forget there's a station at Mississippi River Watershed Management Organization (MWMO) at 2522 Marshall St. NE.

Like the hugely popular Nice Ride model, Paddle Share is an award-winning, first-of-a-kind, self-service kayak sharing system in a national park that provides everything you need to get out on the water in the Mississippi National River and Recreation Area.

How it works: users can visit paddleshare.org to make a reservation, select the desired rental period and method of payment, receive an access code, and check out the. There are now five rental stations in Minneapolis and St. Paul. Reservations are available for morning, afternoon, and early evening paddles, Friday through Monday, and locations are aligned with Nice Ride bike share stations so you can paddle one direction and bike back to where you started. More information and reservations can be found at paddleshare.org.

Recreational Fires: Play by the Rules

Residents who like to enjoy a small outdoor recreational fire should be considerate of their neighbors and make sure they are abiding by City ordinances:

- Outdoor fires are permitted between 9:00AM and 10:00PM.
- Keep fires small, less than three feet in diameter and two feet high.
- Burn only untreated, unpainted, dry wood. Never burn cardboard boxes, trash, or debris because the smoke can be toxic.
- Fires must be at least 25 feet away from a structure or combustible material and in a fire ring or pit with edges more than six inches high.
- Have a hose or fire extinguisher present.
- Postpone the fire when the wind exceeds 10 mph.
- Fire must be constantly attended by someone 18 years or older and completely out before being abandoned.

Deadline to Apply for a Raingarden: June 15th

Want to do your part to improve the watershed that feeds the Mississippi River? Interested in a pollinator-friendly garden in your yard?

Raingardens are beautiful landscaping features that protect water quality and provide habitat for pollinators. They use native plants and capture rainwater runoff so it can filter through the soil instead of flowing into storm drains and directly into our lakes and rivers.

The Marshall Terrace Neighborhood Organization (MTNO) and Metro Blooms are partnering to work with property owners (*residential, business, and places of worship*) to install raingardens in the neighborhood. Property owners would pay for a small portion of the project. (*Total cost depends on size and scope of each project.*) Metro Blooms would design the gardens, coordinate the installations, and order materials, so all property owners have to do is plant.

Would you be interested in an opportunity like this? Contact us by Monday, June 3rd and let us know. Interested property owners should contact MTNO at marshallterraceMPLS@gmail.com with "Raingarden Application" in the subject line, and your name and address in the body of the email.

If there's enough interest within the neighborhood, we'll move forward with the project. Names will be randomly selected, and those chosen will be notified. Email us soon; *spots are limited!*

Volunteer fifteen minutes, twice a month for cleaner waterways and healthier communities.

Adopt-a-Drain asks residents to adopt a storm drain in their neighborhood and keep it clear of leaves, trash, and other debris to reduce water pollution.

It's easy:

Sign up

Sign up online to Adopt-a-Drain in your neighborhood.

Keep your drain clear

Sweep leaves, trash, and other debris off the drain surface year-round.

Track your impact:

Keep an estimated total of the debris you collect and enter it into your online account so Adopt-a-Drain can gauge the cumulative results of their work.

Lead by example:

Let friends and neighbors know about your commitment and, if they ask, tell them about small things they can do at home to prevent water pollution.
